

**CTR350**

# 3G Mobile Broadband Travel Router

*USB or Ethernet to Secure, Shareable WiFi*

**POCKET-SIZE SIMPLICITY**

The CradlePoint CTR350 Mobile Broadband Travel Router is a full-featured wireless 802.11 b/g router developed to be a true plug-n-play solution. Simply connect an active USB modem or ethernet-based data service, plug in the power, and turn the unit on. Within seconds, you will have a secure WiFi network and the ability to connect up to 16 WiFi-enabled devices.

**PORTABLE WITH FAILOVER/FAILBACK**

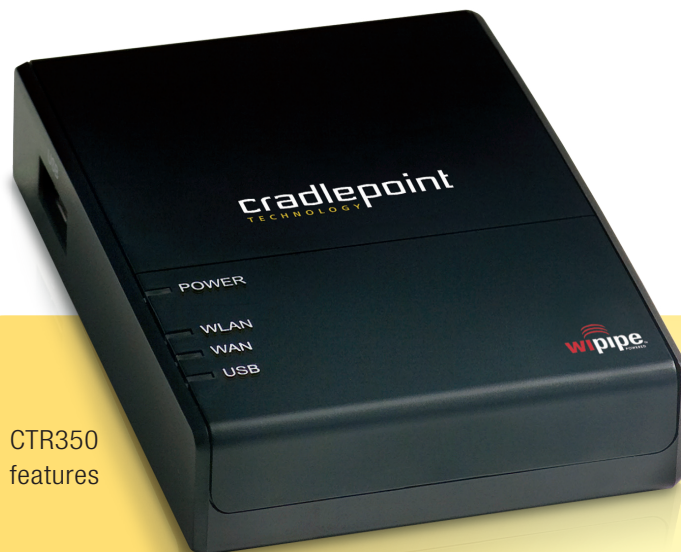

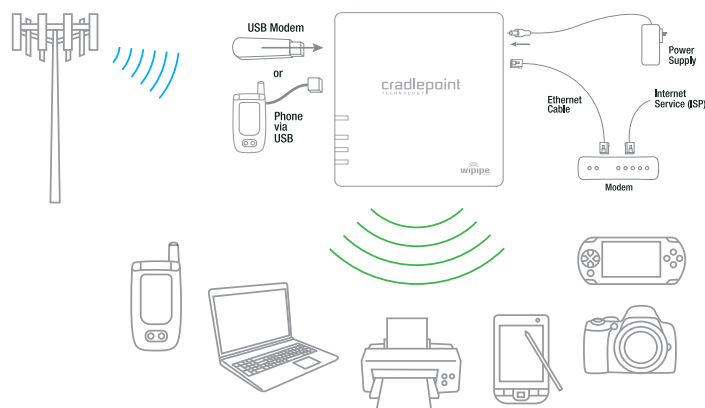

The smallest router in its class, the CTR350 can be used in two ways - with a USB modem or ethernet-based data connection.

Enjoy the simplicity and convenience of creating a secure WiFi network with a single USB data modem without having to search for a public hotspot. Never risk sharing important information over a non-secure connection again.

When using a wired ethernet data connection, in the event of a loss of service, the CTR350 will automatically failover to an attached active mobile broadband data modem. With no interruption to the users, it allows you to always connected.

**POWERFUL SECURITY**

Powered by WiPipe™ technology, CTR350 requires minimal setup and maintenance, including pre-installed software for right-out-of-the-box simplicity. Standard in the CTR350 are security features like multiple WiFi-encryption modes like WEP and WPA/WPA2 (Personal & Enterprise) and built-in firewall, which prevent unauthorized use of your connection.

CTR350 features

- **Compact Go-Anywhere Size**
- **Create A Secure WiFi Network Instantly**
- **Portable, Shareable with up to 16 Devices**
- **No Software or Drivers To Install**
- **Plug 'n' Play - Zero Hassle**
- **Failover Redundancy**

Connects with any WiFi-enabled device:

CTR350

# 3G Mobile Broadband Travel Router

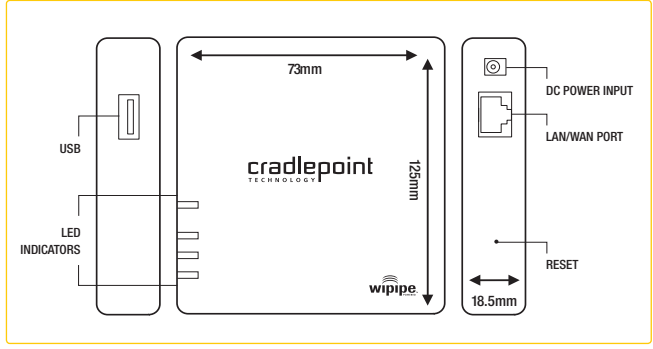

<b>SPECIFICATIONS</b>	MODEL NAME: CTR350 Mobile Broadband Travel Router
	WiFi STANDARDS: IEEE 802.11 b/g
	NETWORK CONNECTIONS AND PORTS: One (1) LAN/WAN Ethernet (10/100), One (1) USB Modem
	BUTTONS/SWITCHES: Reset
	LED INDICATORS: Power, WLAN (Mobile Broadband) Status, LAN Connection Status, WiFi Status
	POWER: 5V DC, 2.5A; 100-240V AC
	DIMENSIONS: 3.6-in x 2.8-in x 0.8-in (92mm x 73mm x 18.5mm)
	TEMPERATURE: 0°C to 50°C (32°F to 120°F) Operating -20°C to 70°C (-4°F to 158°F) Storage
	RELATIVE HUMIDITY: 10% - 85% Operating / 5% - 90% Storage
	CERTIFICATIONS: FCC, WiFi Alliance

<b>DETAILS</b>	Use with USB-Style Cellular Modem, Phone with Data Tethering Capability, or Ethernet
	Compatible with HSPA and EVDO Cellular Network Devices
	Universal Plug-n-Play and ALGs support for Internet Applications: Email, FTP, Gaming, Remote Desktop, NetMeeting, Telnet, SSH, And SCP
	Flash Memory for Firmware Upgrade, Save/Restore Settings
	Easy Management via HTTP, Remote Management Service Available
	Networking Compliance with IEEE 802.11 b/g Standards
	Compliant with Windows 98SE/NT/2000/XP/Vista/Server 2003/Linux/Mac OS

<b>SECURITY</b>	Access control available in encrypted and open modes, password-protected access to prevent unauthorized usage.
	Provides additional security of Enable/Disable Network Name Broadcast and Internet Access Control (Services, URL, and MAC Filtering)
	Firewall features Network Address Translation (NAT) and Stateful Packet Inspection (SPI) which protects against DoS Attacks
	Multiple Concurrent IPSec, L2TP and PPTP VPN Pass-Through Sessions

\* Requires Activated USB and/or ExpressCard Modem with a Mobile Broadband Carrier. Over 100 Modems and Handsets are Supported.  
 \*\* Based on Mobile Broadband Coverage
