Marke: Max Michel

Bestell-Nr.: 60-SG1002

The Smart-Grip cradle supports the Datalogic Series terminals including the Falcon X3, and the Kyman industrial mobile computers. The Smart-Grip mount is ideal for use on forklifts, shop carts, and work benches. The all steel construction of the holder and fully adjustable Ram Mounting system supports hands-free operation and supports unique mounting situations. The Smart-Grip holster with its open end supports cables and adapters for flexible operations. The Smart-Grip design also allows for full use of the rugged mobile handheld computers while in the Smart-Grip holster. It also accommodates mobile data terminals with pistols grips or without pistol grips. Contact Theracon for support of other Datalogic terminals.
