Marke: Max Michel

Bestell-Nr.: 60-SG3100

The Smart-Grip mount supports the CKxx family (CK3, CK31, CK61, CK70 and CK71) of portable data terminals with or without pistol grip. The Smart-Grip Cradle is ideal for use on forklifts, shop carts, and work benches. The all steel construction of the holder and fully adjustable Ram Mounting system supports hands-free operation. The Smart-Grip holster with its open end supports cables and adapters for flexible operations. The Smart-Grip design also allows for full use of the rugged hand held mobile computer while in the Smart-Grip holster. Contact Theracon for support of other Intermec terminals.
