

## Scanner holders

If employees need free hands when they're working, then scanner holders for barcode scanners are the best solution. Theracon offers you holders specially adapted to the characteristics of individual devices from renowned manufacturers. In addition to table and wall mounts, our offer also includes vehicular mounts. These can easily be attached to floor conveyors, such as forklifts. Furthermore, you will find suitable mounting options for your tablets.

### Holders for all demands

**Scanner holders for handheld devices with pistol grip**

**Scanner holders for barcode scanners - individual wall mount possible**

## Holster and scanner bags

**Holsters for barcode scanners and mobile computers**

**Standard belt bags with belt clip**

### Cases for every scanner

We supply high-quality manufactured protective cases and bags for barcode scanners. You can choose between a number of standard belt bags. Moreover, we give the option of configuring individual cases according to your ideas. Simply specify online for which device you need a protecting solution. Decide on extras like an additional pocket, pistol grip or company logo. We'll take care of the rest.
